NCS DELHI

BUZZ VOL. 2 2021-2022

From the Principal's Desk

When we look back, we are sure to agree that some of the harshest challenges we have faced are the ones that just keep coming back. We have all been enduring the setback of one such persistently recrudescing challenge. However, recurring threats can elicit unique responses that build strength allowing beings to shift from mere survival to prosperity in the face of ongoing struggles.

As I write, I am reminded of the unflinching determination among students of NCS Delhi. Dear students, your seamless transition into the alternate mode of education stands testimony to your firm and unwavering adherence to purpose. Buzz Vol. 2 is evidence of how you turned around the hindrances. The innumerable accolades brought back to school in inter-school, zonal, district and state-level competitions are a re-assurance of the staunch endeavours of each one of you, who have worked resiliently as individuals and as a team along with the teachers. It is a pleasure to see you all grow and march up ahead carving new paths and leaving behind trails for others to follow.

May you always keep the flag of Navy Children School, Delhi flying high.

God bless you all.

Oshima Mathur
Principal

A Walk Down the School Corridors

K.G. Activities

Impressionable Impressions

VIRTUALLY OFFLINE

The hustle and bustle
In the corridors of my school
Wear a vacant look
As a virus begins to rule.

Playgrounds with children,
Wiped out clean
Now working from home-
Through a screen.

Classes are virtual
Microphones muted
Cameras switched off,
Questions eluded.

Vaccines for all
Welcome Our savior!
There's Mr. Virus
Beginning to quaver.

I can see it,
In the near future
Physical school!
And, all the joys associated with her.

Adwaita Kartik Murthy, X-B

TECHNICAL GLITCH

My favorite moment of online learning happened during 2020 when we had to conduct a class assembly for Teacher's Day. A group of ten students got together to create an "e-spectacle", where we wanted skits, songs, poems, art, etc. We worked hard on the assembly by having occasional online meetings outside of school. We had a hilarious item where a student sang specific songs about events that happen during online classes- such as "Yeh Kahan Aa Gaye Hum (*Eng.:* where have we come)" for when you click on the wrong *Teams* meeting link and end up in a meeting with no members! We were as confident as we could be, and on the final day, we joined the class with high hopes and nerves. Just as we were about to begin, we lost connectivity! The

person responsible for playing the videos could not use their laptop anymore and there was an awkward online silence... until we used the magic of *Web WhatsApp*, screen sharing, and quick-thinking, and could finally get the assembly back on track! But in an online world, we have electricity blackouts, laptop screens hanging, distorted videos. Truly, this is a vastly different world, but one we learned to navigate all the same.

Tamanna Sharma, XI-A

A WONDROUS EXPERIENCE!

When the schools closed,
The children raised a toast,
They all started to chill,
But probably didn't think too far

They thought what a pleasure,
Sitting at home all day would be,
But suddenly there was a change of time,
A message from school gave them a fright.

The online classes started,
We all downloaded Teams app,
What a mystery at first it seemed,
We didn't know how to operate the app.

We started to learn slowly,
Some misused their devices,
They switched off their mics and cameras,
And watched YouTube and played on the
sides

But some were honest and true
And to their Teams screen they stayed
glued.

The school held many competitions,
The school tried its best,

While some sat at home relaxing,
The other students were practicing.
Well, online schooling has made me smart,
For which I thank my teachers with all my
heart.
